

# SPECIALIST PRODUCTION SERVICES

- **Presentation Capture:** When you speak to a group, using state-of-the-art HD video equipment we record your presentation and provide a DVD.
- **Presentation Production:** We capture your presentation and provide a DVD which contains your powerpoint slides plus opening and closing titles.
- **Presentation Production and web delivery:** A presentation production with DVD plus additional video computer files optimised for delivery using video streaming.
- **Presentation opening and closing montage:** HD quality video shot in and around your location, highlighting your presentation either with or without music. Scene setting for stage events or plays suitable for front or rear projection.
- **Interview / News conference recording:** When you are being interviewed by the media we video the entire proceedings to provide you with a definitive record of not only what you said, but more important, how you said it. If you have been "misquoted" you can use the video on your own website to "set the record straight".
- **Video Illustration:** Short DVD presentations of limited lifetime material such as show homes or top of the range cars. Ideal for waiting rooms.
- **Actuality:** When you have a need for an independent recording of an event or process we can provide either real time or time lapse video recording. Typical examples might include filming the installation of critical equipment; safety briefings and demonstrations; recording the progress of a project.
- **All of the Collie Specialist Production Services are available applications with a limited budget.** No matter what your need, we can provide an enhanced service at an affordable price. Call for details and a quote.
- **Standard Productions Services:** we also provide a full range of standard corporate television productions, promotional videos, training programmes and television commercials.
